

Eglinton - Mt Pleasant CLC

Eglinton Crosstown LRT

July 14, 2021

ACCESSIBILITY HIGHLIGHTS

EGLINTON STATION:

- The Main Station Entrance will be barrier-free, including elevators connecting passengers to the street level and to the platform levels.
- Transfer elevators will provide access between the TTC Line 1 and ECLRT Line 5.
- Six points of access are provided to the station from street level.

MOUNT PLEASANT:

- The Main Station Entrance will be barrier-free, including elevators connecting passenger to the street level and to the platform level.
- At street level, the Main Entrance connects with the TTC bus routes on Mount Pleasant Road, Northbound and Southbound.

ACCESSIBILITY HIGHLIGHTS

For all ECLRT Stations:

- A barrier-free route with elevators from the Main Station Entrance through to the platforms.
- The paving design for all station entrances includes wayfinding strategies such as an “urban carpet” that provides visual contrasting paving materials to guide passengers towards the Main Station Entrance. Tactile guidance paths that colour contrast with the surrounding floor surface, commencing inside the main Station Entrance doors, leading to the platform level via the elevator.
- Enhanced Passenger Assistant Intercoms will be provided at the station entrance lobbies, accommodating verbal and non-verbal communication, and provide a hearing induction loop to assist people who use hearing aids.
- A Paratransit stop will be located within proximity and within sight lines to each station’s Main Entrance.
- Station entrances will provide hands free automatic sliding doors, providing an accessible clear width when open.
- Directory signs for elevators will be provided in braille and print.
- Tactile walking attention indicators will be provided at the top of all stairs and along all platform edges.
- Stair’s nosing will provide a high level of colour contrast with the treads.
- The Designated Waiting Areas on the platforms will be identified with a colour contrasted textured flooring surface.

Eglinton Station
